OBJECTIVE

Allegiant's objective was to increase security at their headquarters while improving ease and speed at which employees enter the office building.

SOLUTION

Integrate Wicket Access, a facial authentication solution, with existing key card system. Enroll employees by taking a picture of their face and registering it on a web portal or mobile app. Allegiant to receive alerts after unauthorized access attempts.

"We are extremely pleased with how much of a security upgrade we have had in our offices with Wicket Access. The system has been a great benefit to our company and our workforce and we intend to roll this out to all six HQ offices in Las Vegas."

MAURICE GALLAGHER
CEO & Chairman, Allegiant Airlines

RESULTS

5

BUILDINGS

30

DOORS

900

EMPLOYEES

Allegiant was given the reigns to create their own terms and conditions for opting into facial authentication.

EASE

- Wicket Access is integrated with existing hardware. Layered onto Allegiant's existing Paxton software, it has created a smooth transition that did not overhaul the system.
- Eliminated the need for credentials. Staff members no longer need to remember to bring their key cards.

SPEED

- Fast decision time of sub-1 second allows Individuals to enter facility with efficient speed.
- Real-time alerts to appropriate staff members when someone who is unauthorized tries to enter the building.

INCLUSION

- Wicket Access works well with masks, facial hair and hats. Even when staff members wore dark glasses, Access was able to to correctly recognize them and grant access.

OPTIMIZED WORKFLOW

- Limited the need to hire multiple security staff members to man the front entrance.
- Eliminate \$18/person registration process with traditional credential system.
- Allegiant has the option to register visitors and their faces for no additional cost.

CONCLUSION

From implementing 5 doors at the Allegiant headquarters to now 30 doors in just a year, Wicket successfully upgraded Allegiant's access control system with minimal impact to existing operations or taxing of resources. Through Wicket Access, employees and invited visitors have been able to enter their buildings quickly and safely. Wicket is excited to continue this partnership with Allegiant.
